

Ensuring Healthy Kids, Who Are Ready to Learn!

At Lake Cumberland Schoolhouse Health, we realize that this school year is going to look a little different for everyone. Whether you are learning virtually or in the classroom, the health and safety of our students, educators and staff are our top priorities and we want to ensure that your school year begins and remains healthy.

This year, visiting the school nurse may also look a little different. Lake Cumberland Schoolhouse Health is a new partnership between your school nurse and Lake Cumberland Regional Hospital that will offer a variety of ways for your child to receive healthcare. Lake Cumberland Schoolhouse Health includes access to:

- The school nurse
- The Schoolhouse Mobile Care Unit
- A telemedicine appointment with a provider at Lake Cumberland Medical Associates

The school nurse will continue to dispense daily medications and offer ways to remedy your child's acute, or sick, needs just as before. New services include at-school visits with a nurse practitioner or physician from Lake Cumberland Medical Associates via telemedicine or on the Schoolhouse Mobile Care Unit. The school nurse will *always* contact you before scheduling an appointment with a Lake Cumberland Medical Associates provider.

Whether you are learning virtually this school year or back in class each day, we want to ensure that you have access to all of these services. Schoolhouse Mobile Care has already begun visiting your school to offer well-child visits, sports physicals, sick visits, and immunizations and your school nurse will let you know when the Mobile Care Unit will be available if you would like to schedule any of these in-person services. If you prefer access to these services virtually, you may contact your school nurse directly or call (606) 451-2756 to set up a telemedicine visit with a nurse practitioner or physician at Lake Cumberland Medical Associates from home.

In order for your student to receive these services, you must complete a consent form. These may be found online at www.lakecumberlandhospital.com/schoolhouse-health or picked up in person from your school nurse.

We look forward to helping you achieve a healthy school year!
